

VEMCO

PROFESSIONAL SALES AGENTS

1625 3<sup>rd</sup> Avenue North  
Great Falls, MT 59401  
Phone: (406) 727-5335  
Fax: (406) 727-5997

To Whom It May Concern:

Your Cleaver Brooks boiler and other boilers at your location may be faced with addressing the upcoming EPA requirements, starting January 2014. There are too many details to cover in this short letter. Basically it's a three step process. Step1—determine if your facility is Major Source or Area Source. Step2—determine subcategory. Step3—address compliance requirements. Please see below for web address for complete EPA Compliance Resources.

Vemco is the Cleaver-Brooks representative for the State of Montana and we are here to support your efforts to meet the new EPA compliance standards. We also offer the full line of Cleaver Brooks parts & supplies, many which are stocked in our Great Falls warehouse. This includes Fireside Gasket Kits, Water Gaskets, Refractory, & Operating Controls to mention a few. We also offer Boiler & Burner Upgrades as well as Monitoring Equipment and Data Storage to meet the new EPA standards.

Vemco also has certified technicians that can be on site during any future inspections, boiler tune-ups, or efforts to meet EPA requirements. For some tips on boiler tune-ups please go to <http://www.cleaverbrooks.com/Reference-Center/Resource-Library/Tip-Sheets/2014-Tip-Sheets/Index.aspx>

For full access to the EPA compliance requirements, please go to <http://www.vemcoinc.com/mt/products/mt.html>. From there scroll down to Cleaver Brooks and click their link. Go to the Reference Center (tab at the middle of the page) then scroll down to EPA Compliance.

For any assistance with the EPA requirements feel free to contact us.

Thank you,
